2020 CEF Telecom Calls for funding

The [CEF \(Connecting European Facility\)](#) is a funding instrument managed by the [INEA Agency](#) of the European Commission, and it co-finances projects from public and private entities to promote the uptake and implementation of IT solutions around the European Union. The new CEF Telecom call for 2020-1 is open now and the deadline to apply is early May.

During the last years LMT Group has prepared and presented 14 project proposals approved by the European Commission with relevant public and private entities organized in very competitive consortiums. Our proposals are built on our consultancy know-how, supporting more than 35 EDI Providers and public institutions to reach this European funding. **You can find more info in our website:** <https://lmtgroup.eu/projects/>

During March, we are looking for public and private companies to join our consortiums in eDelivery, eIdentification and eSignature calls, in case you would be interested in any of them, please, contact us as soon as possible to receive specific information. **Confirm your participation by the end of March at the latest.**

eDelivery	eIdentification	eSignature
Under this call, IT companies or public institutions will receive funding to create or upgrade an AS4 PEPPOL Access Point.	Public institutions and IT companies will receive funding to connect their e-services to their national eIDAS node for the electronic identification of European citizens.	Public institutions and IT companies will receive funding to develop or update electronic signature and seal tools.
- Period: October 2020 - March 2022	- Period: October 2020 - March 2022	- Period: January 2021 - June 2022
- Estimated grant: €43.000	- Estimated grant: €80.000	- Estimated grant: €35.000-€60.000
- +info: call website	- +info: call website	- +info: call website

We will also prepare project proposals for the upcoming **calls to submit on 5th November 2020**, so contact us if you are interested in any of them:

Cybersecurity	eArchiving	eHealth	eProcurement	Open Data
Aim: Increase cross-border cooperation and the cybersecurity capabilities of European State's cybersecurity.	Aim: Sustainability of digital content held by all type of archives in order to guarantee that it remains accessible, trustful and useable over time.	Aim: Improving cross-border healthcare access and services using ICT tools (ePrescriptions and Patient Summaries).	Aim: Simplify public procurement procedures and processes, facilitating the participation of suppliers and buyers in them.	Aim: Achieve better services for citizens and public administrations, re-using public-sector information.
Total funding: €10.5 million.	Total funding: €1 million.	Total funding: €5 million.	Total funding: €3 million.	Total funding: €3 million.
